ClinicalKey highlights:

For teaching faculty

- Persistent links to articles, chapters from ebooks and topic pages that can be used in presentations and teaching materials on the VLE
- Presentation maker to import images and citations into presentations
- Option to save and share knowledge with students and colleagues from within ClinicalKey

For clinicians

- A single search box for Elsevier's clinical content
- Clinically relevant, evidence based resources
- Smart searching which recognises relevant clinical concepts as you type and offers shortcuts to clinical answers
- Access anywhere you need it on any type of device

For students

- Over a thousand e-textbooks allowing unlimited user access including:
- Topic overviews for easy to read disease summaries
- Evidence based, reliable source of clinical information
